Experiment 6: Mobile Network Handoff Simulation

Aim: To simulate a handoff scenario in a mobile network and visualize the process using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Draw two cellular towers representing Cell A and Cell B.
3. Add a mobile station moving from Cell A toward Cell B.
4. Show signal strength indicators for both cells.
5. Draw arrows representing the handoff process.
6. Add labels for handoff decision, connection transfer, and reconnection.
7. Use Prototype mode to demonstrate the movement and handoff between the two cells.

Output:

https://www.figma.com/make/xeFnCttnGVhREtwtUX39ye/EXPERIMENT-6?t=EgmerP76fgHXnljb-0

Result: Thus, a mobile network handoff scenario was visualized successfully using Figma.
