Experiment 11: Mobile Application with Security Measures

Aim: To design a wireframe for a mobile application incorporating security measures using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Select a smartphone frame for the security application.
3. Design a login screen with username and password fields.
4. Add OTP verification and biometric authentication options.
5. Include password visibility and privacy settings.
6. Add security alerts and account protection options.
7. Use Prototype mode to connect the screens and test the navigation flow.

Output:

https://www.figma.com/make/H1GPp718oASHdRjjXMIBN1/EXPERIMENT---11?p=f&t=msDtKmEkvY4TyynJ-0

Result: Thus, a secure mobile application wireframe incorporating authentication and privacy features was designed successfully using Figma.
